Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 August 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 2, 5, 8-11, 16, and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Suzuki et al. (6,706,029).

With respect to claims 1, 5, 8-11, and 16, Suzuki discloses an absorbent product, as shown in figure 1, having a longitudinal and a transverse direction, a front portion, a rear portion, a crotch portion, and edges. The absorbent product comprises a liquid-permeable surface layer 1, a liquid-impermeable surface layer 2, and an absorbent body 3, as shown in figure 2. Liquid barriers 7 extend in the longitudinal direction and having a free edge 10, as shown in figure 2. Side flaps,

Art Unit: 3761

shown in figure 2 but not numbered, extend outside the liquid barriers 7 and comprise parts of both the liquid-permeable and the liquid-impermeable surface layers, as shown in figure 2. Elastic elements 11 are fastened only to the liquid barrier 7 without an elastic element being connected to the side flaps, as shown in figure 2. The liquid barrier 7 is located in the crotch portion, as shown in figure 1, and fixed to the adjacent side flap outside the edges of the absorbent body 3, as shown in figure 2. The elastic elements 11 cause the liquid barrier 7 to pull the side flap up, as shown in figure 12, forming double raised leakage barriers.

With respect to claim 2, the elastic elements 11 comprise at least one elastic thread, as disclosed in column 7, line 48.

With respect to claim 18, the elastic elements 11 are only fastened to the liquid barriers 7, as shown in figure 2.

Response to Arguments

Applicant's arguments filed 24 August 2004 have been fully considered but they are not persuasive.

In response to the applicant's argument that Suzuki fails to disclose double raised barrier, it is noted that Suzuki shows in figure 12 the elastic members of the liquid barriers contracting and causing the side flaps to lift up while the product is in use. Suzuki therefore discloses a product having double raised barriers.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3761

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
